LOC LAM - US CITIZEN

San Diego, CA• LakeLocLam@gmail.com • https://www.linkedin.com/in/loc-lam

Skills

AI & Agentic Systems	Claude Fable, OpenAI GPT-6 Astra, Gemini, Grok, n8n, RAG Architectures, Vapi, Retell, ElevenLabs, Higgsfield, Kling, Seedance
Growth & GTM	GTM Strategy, CRO, A/B Testing, Experimentation, Funnel Optimization, Customer Acquisition, UGC Campaigns, Storytelling
Product Leadership	Product Roadmapping, User Stories, Agile/Scrum, Stakeholder Management, Customer Discovery, AEO, LLM-driven Discovery
Technical & Tools	Jira, Confluence, Figma, PostHog, Mixpanel, Tableau, SQL, REST APIs, Webhooks, GitHub, Vercel
AI Prototyping	Claude Code, Cursor, Replit, Lovable, OpenAI Codex

Professional Experience

Growth Product Manager 09/2025 - Present
FirstLight Home Care San Diego, CA

- Built AI-augmented Voice of Customer (VoC) synthesis workflows to cluster sentiment and objections from intake calls, directly informing GTM positioning and reducing Customer Acquisition Cost (CAC) from $200 to $150 within 6 months.
- Deployed an automatic lead nurture workflow via n8n that parsed prospect intake transcripts with Claude, generating customized care plan proposals that increased lead-to-client conversion rate from 2% to 10% in 3 months.
- Engineered automated lead follow-up sequences integrating dynamic generative copy and care milestone triggers, lifting 90-day client retention from 60% to 90% and expanding average customer lifetime value (LTV) from $9,000 to $17,000 within 6 months.
- Architected and deployed an autonomous inbound lead triage pipeline using n8n and Claude LLM agents, qualifying prospect inquiries against ICP criteria and cutting lead response time from 25m to < 2m while boosting weekend conversions by 22% within 3 months.
- Designed automated caregiver-client routing workflows using API triggers and structured scoring logic, doubling billable caregiver capacity from 15 hours/week to 30 hours/week and cutting monthly operational overhead by 25% within 6 months.

Product Manager 05/2023 – 08/2025
Triumph Financial Inc. Dallas, TX

- Spearheaded product discovery and delivery for freight fintech payment platforms, scaling active adoption from 0 to 22,000 user accounts within 12 months.
- Led cross-functional engineering pods using Agile/Scrum, accelerating sprint velocity from 30 to 45 story points and slashing release turnaround from 6 weeks to 2 weeks.
- Introduced AI-assisted invoice parsing and automated verification prototypes, lifting onboarding conversion rate from 10% to 25% in 3 months.
- Implemented contextual in-app behavioral analytics and event-driven triggers, increasing 30-day returning user retention from 50% to 70% within 6 months.
- Directed end-to-end GTM alignment with Sales, Marketing, and Operations, orchestrating feedback loops that accelerated average product launch cycles from 5 months to 3 months and lifted Day-1 adoption by 30%.

Product Manager 09/2016 – 04/2023
Transamerica San Diego, CA

- Led concept-to-launch product execution for customer acquisitions, driving user engagement KPIs up by 35% across high-volume financial services products.
- Automated customer feedback sentiment tagging and synthesis pipelines, translating 20+ quarterly user discovery interviews into prioritized product specs and backlog user stories.
- Partnered with data engineering to build predictive customer segmentation models, contributing to customer acquisition initiatives that generated $75M in cumulative revenue.
- Spearheaded roadmap prioritization across engineering, compliance, and design, beating annual client retention OKRs by 8%.

Education

University of California San Diego San Diego, CA

Bachelor of Science, Electrical Engineering 1998
